

CWEA SCVS Lab Committee presents

The first steps to implementing the TNI 2016 Standard, Rev 2.1 – Session #5

Session #5 will provide an introduction, a summary of the 7 useful tools, and then discussion for requirements for Collection of Samples (Clause 5.7), Handling Samples (Clause 5.8), Quality Assurance for Environmental Testing (Clause 5.9), Reporting the Results (Clause 5.10), Module 4 (Chemistry). The requirements for MDL determinations under 40 CFR Part 136, Appendix B, Revision 2 and TNI's LOD/LOQ will be presented.

This is the fifth in a series of 6 sessions. The speaker shall present the TNI 2016 Standard, Rev 2.1 along with a summary of key points. A copy of the TNI 2016 Standard, Rev 2.1 will be projected on the screen for individual clause training with an emphasis on troublesome requirements for small laboratories during the implementation phase. Best practices for aligning with the Standard in a small laboratory will be presented. Tools and resources for efficient implementation will also be discussed. Each attendee must bring their own copy of the TNI 2016 Standard, Rev 2.1, to follow along and take notes. A power point presentation summarizing key points and challenges for small laboratories will be provided as part of the training material for session 5. Pages from the TNI 2016 Standard, Rev 2.1 of the clauses planned for discussion with notes will be provided. Open discussion and questions will be encouraged throughout the training. Future TNI sessions will be scheduled for topics not covered in today's presentation. (Save the date: February 19th 2019 for session #6).

Schedule:

Date: Tuesday, November 13th 2018
